

VISTABELLA GOLF HOMES, a company located in Vega Baja Area, in Alicante province, in the Community of Valencia, in **Vistabella Golf** (Orihuela Costa), has decided to support **sustainability**.

During 2019, all our electricity consumption became 100% renewable, 185,428 Kwh consumed, contributing to the reduction in CO2 Atmospheric Emissions of 96,423 kg a year.

The energy is supplied by **Helioelec Energía Eléctrica y Gas**, accredited by CNMC (Market National Commission), as a 100% renewable energy company.

This is a further step by the Group, in our environmental policy and in our commitment to the conservation of sustainable resources.

Furthermore, some of our clients are already collaborating with the sustainability with the used of renewable energy supplied by **Helioelec**.
